

Mytee Dry™

METALLIC

8400M

■ Built for life!

Let's face it, sometimes us cleaning professionals can be a little hard on our tools. That's why you need a durable, long lasting upholstery cleaning tool. The Mytee Dry™ Metallic is made with a **new black powder-coated metal bottom** that can withstand the rigors of daily use so you can continue delivering great results for years to come!

The Mytee Dry™ Metallic cleans using a **shear effect** that's created by the continuous flow of water exiting the spray bar quickly getting sucked back up through the vacuum slots. This prevents over-soaking and helps reduce dry times even further!

■ Features

- Ergonomic design offers an unmatched user experience and is much easier on the wrist than traditional triggered tools.
- Clear plastic top allows the user and the client to see just how much dirt and grime is being extracted.
- The Mytee Dry™ Metallic is the only continuous flow tool in the industry with durable metal construction.
- The built-in swivel and extra flexible hose combine to make for an exceptionally maneuverable tool.
- Easy-to-access flow control knob.
- Includes 1.5" barb-to-barb fitting, 1.5" vinyl slip cuff, Cuff-Lynx™ Hose Connector, Heatguard™ Hose Wrap, two high velocity glides, and a Mytee® carrying pack.

Automotive Detailing: Easily clean headliners, seats, and car mats!

Upholstery: Sofas, pillows, chairs – the Mytee Dry™ can do it all.

Mattresses: Quick drying times and no over-soaking make mattress cleaning a breeze.

Curtains: Gentle enough for delicate fabrics.
